"True to the Lover's card, which the label illustrates, our 2025 Pinot Grigio toes the line between the 'Gris' and 'Grigio' styles of this great grey grape. Whilst both Grigio and Gris translate into 'grey' in their respective languages, here they typically reference the two vastly different styles of the variety. Grigio wines are generally more fresh and crisp, whilst the Gris style is richer and dripping in riper fruit flavours, and this wine melds both styles seamlessly together."
